Juicy Jammy's "Workers"

The "Workers" are the employees of the factory that make up our tale. They work very hard so comfort is key.

Tip: While an apron isn't necessary or required, it can be a great accessory to wear in the factory. A full apron as seen above or a half apron on the waist would be perfect.

The color palette in the factory should be green, orange, and blue. Materials like Denim, khaki and Flannel are great for the working environment these characters are in. Any combination of pants, skirts, capri's, blouses and tops work as long as they stick to the color scheme. Cover-alls would also work. Comfortable shoes in a neutral color.
